

American Revolution

THE DESTRUCTION OF TEA AT BOSTON HARBOR, DECEMBER 16, 1773

Now that our students are familiar with famous people of the American Revolution, they are ready to create research reports. They have chosen their famous persons and are currently researching them in the library.

The report must be 250-300 words long. Three references are due with the report. The students have been shown how to make a Bibliography, so one will be due with this report. If they have a problem in completing the bibliography. I will be glad to help them.

One visual aid is due, such as a picture, transparency, poster, etc. Creativity is very important.

It is very important that all students know how to research for information, and the reports they do for class are designed to allow for discovery learning. I am so glad that they are excited about doing these reports.
